### TURNPIKE CRASH

**Hudson, Ohio** – Aspiring chemist Lucian Pinegrove of Bath Road in Cuyahoga Falls crashed his van at the Turnpike exit here early Thursday night. Mr. Pinegrove was not injured but the toll-collector's area and the van sustained damage. Eager to be on his way, Mr. Pinegrove retrieved a bucket of construction material from his van and began to work on the damaged building. He applied a white material with a large brush. Almost miraculously the damaged area was fully restored. Other travelers had stopped to watch the rapid repair work. A traveler asked what the white material was. Mr. Pinegrove reported it was a product he had developed. He said it was **TOLL GATE BOOTH PASTE**.
