

OUTREACH 2010 ANNUAL REPORT

So many of you are on the Outreach Team and do not even know it. If you have invited anyone to church, B.A.N.D. Sunday, VBS or any other activity here at Broadman or an activity that has been planned to share His words, you are on the Outreach Team.

Matthew 22:9 *Therefore go into the highway and as many as you find, invite them....*

Many of you have reached out to friends and family and shared the good news about Broadman and keep asking them to come and hear our Pastor share His words. Everyone here reaches out making visitors feel so welcome -- we all have and so make a difference by praying, singing and praising HIM.

I am excited about several things we have done before but also each year as it comes up it just gets bigger and better. In March we will again have the EXPO at the Natatorium. Sharing His good news and inviting people to come and worship with us here at Broadman. Thank you ladies for all those cookies that we just give away, and of course the famous meatballs. People actually smell our booth before they see us. Thanks again for a great team effort in this, another great opportunity to share about our Lord Jesus.

Stow Fourth-of-July Parade was another fun day to share His words by passing out Candy and flyers about VBS. Once again you are on the team if you can buy candy to be passed out, come watch the parade or parade with us.

At VBS 2010, *Saddle Ridge Ranch*, we had a blast. It was a great learning time with lots of fun and activities, great music and of course the food and drinks were the best yet. Country shirts, boots and the whole western theme was pretty cool for kids and adults. In 2011 we are going to go to the *Big Apple*, you won't want to miss of this great time, the plans are already in the works to reach out and bring them in.

Jennifer Jarosz VBS Coordinator

Fall Hikes is one of my favorites. Starting in September 2011 we meet at a different metro park at 3:00 P.M. We start the hike with thanking our Lord for such a great place and then taking the time to walk and talk sharing with all different age groups. Pastor and his family are there most of the time and what a great time to get to talk one-on-one with each other.

This year also we were surprised when we were asked to do face painting at the Cuyahoga Falls Health Fair -- just another time to have fun and asked people to come and visit. It was a good time to invite people to come and join us for our special Christmas Sunday evening

programs.

In late 2010, an on-going *In-reach* ministry was initiated through the Adult *Life Impact* classes. Using lists of VISITORS, PROSPECTS and INACTIVE MEMBERS, class members were challenged to contact at least one person per week for Christ's Kingdom.

Thanks for all your support and keep asking friends and family to check us out; we are truly the best.

Reaching out with you for Him,

Alberta Balsinger
Outreach Director
