

## FACILITIES 2009 ANNUAL REPORT

Maintaining the church facilities and providing a safe, clean environment to worship requires a group effort. We are blessed to have so many skilled individuals at Broadman that volunteer throughout the year with a variety of projects!

### **Building and Grounds**

Last fall, Karl Wortman decided to step down as the Building and Grounds Leader after many years of service. I want to acknowledge and thank Karl for the time and energy he put into the church facilities during his tenure. Karl hasn't slowed down; in fact he still works with the B&G team on a regular basis. For instance, Karl and Doug Mcle have worked many hours upgrading several electrical issues in the building. Often work like this goes unnoticed, but they are examples of people making Broadman a safe, secure place to worship.

There are many projects to be completed throughout the year--too many to mention. The B&G team is always looking for help. If you have any interest in helping the building and grounds team-whether for an hour a year, an hour a month or an hour a week, please let me know.

### **Interior Decorating Team**

Pat Groetz has continued in her role as Coordinator of this important ministry and Millie Castillo has supported her efforts throughout the year. This year the team purchased the stone pillars for floral arrangement in the sanctuary. Millie Castillo also designed and made the Easter/Spring arrangements. This team is responsible for coordinating the many Christmas decorations throughout the church.

### **Green Thumb Team**

With the recent departure of Greg Russella, the Green Thumb team was in need of a new coordinator at the end of 2009. Greg did an outstanding job as coordinator of this ministry and I thank him for his efforts.

I am pleased to report that Joyce Lape has accepted the nomination to fill Greg's shoes as the Green Thumb Team Coordinator. One of Joyce's primary projects in 2010 will be adding more perennial plants to the property, reducing the need for spring annuals and saving money long term.

### **Security Team**

We are in the development stages of this important ministry. At the time of this report, we are in the final stages of selecting a Security Leader. Once the Security Leader is in place, he or she will begin building on the security policies and procedures the Trustees have put in place. Needless to say, this is a very important ministry and one that I look forward to watching progress in the coming months.

Dave Lape, Director of Facilities
