

FELLOWSHIP 2009 ANNUAL REPORT

Fellowship is not only important to the strength of our church but also to its growth. Many souls can be reached through fellowship with the body of Christ.

Fellowship goes beyond just having a few meals together. Instead, fellowship is the development of real and lasting relationships that have an important influence between the members and future members of Broadman.

The Fellowship Team invites all to join in events such as the annual picnic, ice cream social, family fun nights and fellowship meals which provide excellent opportunities to form positive life-changing relationships with others.

Keep Broadman strong and grow so we can be ***A Church That Makes A Difference.***
