

The Information Technology (IT) Team has worked during 2009 solving a number of computer and audio-visual issues. We have upgraded all computers to **Windows Office 2009**[®]. We are presently working on licensing all operating systems. A new computer was purchased for the sanctuary. Internet service was extended to the computers in the sanctuary and the Tellers' room.

Thanks for all the service of the IT Team.

We welcome Larry Taylor, Webmaster, to the IT Team.

IT Team :

Bill Stockdale, Coordinator
